SUMMARY

Experienced Front-End web developer and advocate for open-source projects, known for adhering to strong coding practices. Proficient in a variety of programming languages, frameworks, and technologies, demonstrating a quick and efficient learning curve. A goal-oriented individual with a solid background in Technical Operations, I have a keen interest in the broad spectrum of IT. Recently, I've been captivated by the realm of web programming, engaging in tasks such as app development and website building.

Having been invited to contribute to a friend's start-up as a front-end developer, I've gained valuable experience in this domain. Eager to further align my practical experiences with my academic studies, I am actively seeking an opportunity for a placement among developers in a company. In return, I offer unwavering commitment and a friendly, collaborative spirit to enhance your team dynamics. Currently, I am engaged in remote freelance work as I continue to explore and contribute to the dynamic field of web development.
